| <input type="checkbox"/> Vacuum Bags/Filters    | Brand-specific for your vacuum | <i>Stock extras</i>          |

### PRO TIP: Stocking Your First Cleaning Kit

Start with the essentials: all-purpose cleaner, glass cleaner, disinfectant, microfiber cloths, a vacuum, and a mop. Add specialty products as you take on different types of jobs. Buy in bulk when possible to save money. Always label your spray bottles clearly!

### **ECO-FRIENDLY ALTERNATIVES**

For clients who prefer green cleaning: white vinegar, baking soda, castile soap, and essential oils can replace many chemical cleaners. Method, Seventh Generation, and Mrs. Meyer's offer effective plant-based alternatives.
