Real talk: When I started my cleaning business, I had NO idea what I was doing.

I showed up to jobs without a plan. I undercharged because I didn't know better. I looked amateur because... I was.

Then I found these templates and everything changed.

Now I walk into every job with a professional checklist. I know exactly what to charge. My clients get intake forms that make me look established.

The best part? I didn't have to create any of it myself. It's all done for me.

If you're a cleaning business owner (or want to be one), you need these templates. Trust me.

Subject: The templates I wish I had when I started my cleaning business

Hey [Name],

When I started my cleaning business, I had zero systems.

No checklists. No pricing guide. No professional forms.

I showed up to every job winging it, hoping I didn't forget anything important.

It was stressful. It was unprofessional. And I'm sure I undercharged more than once.

Fast forward to today, and everything's different.

I have professional checklists for every type of clean. I know exactly what to charge. My clients fill out intake forms that make me look like I've been in business for years (which I have now, but that's beside the point).

And here's the thing - I want to share these systems with you.

I put together a Cleaning Business Starter Kit with all the templates, checklists, and pricing guides you need to run your business like a pro.

Here's what's inside:

- ✓ Standard, Deep, and Move-Out cleaning checklists
- ✓ Client intake forms
- ✓ Professional invoice templates
- ✓ Residential and commercial pricing guides
- ✓ Excel pricing calculator
- ✓ Supply shopping list
- ✓ Business starter tips

Everything is customizable with your business info. Just download, edit, and start using.

Subject: Still thinking about those cleaning business templates?

Hey [Name],

I wanted to follow up on the Cleaning Business Starter Kit I shared a few days ago.

I know investing in your business can feel like a big decision, so let me break down exactly what you're getting:

10+ Professional Templates - Checklists, forms, pricing guides, and more

Fully Customizable - Add your logo, business name, and contact info

Instant Download - No waiting, start using today

Based on Real Experience - These are the actual templates used by a successful cleaning business since 2017

The question isn't whether these templates will help your business (they will).

The question is: how much is your time worth?

How many hours would it take you to create all of this from scratch?

How much money have you lost by not having professional pricing guides?

How many clients have you missed because you didn't look established?

For less than the cost of one cleaning job, you get a complete business system.
